MEMORANDUM FOR GENERAL CABELL, DDCI

SUBJECT: Briefing on the Watch Committee and the National Indications Center

Herewith a copy of the briefing you requested on the Watch Committee and the National Indications Center for Mr. Dulles to use during President Kennedy's visit to CIA. Mr. Sheldon has told me that he is assembling all the briefings for this purpose, so I have sent him the original and two other copies. Hope this is satisfactory--although a little long--runs about eight minutes--and if you have any changes, please let me know.

Respectfully,
